Secondary Transcribed Text (CSUSA_Session_Dragon-1.Lst2) - 54.12% Accuracy

Chest and lateral

History: [Himalayan]

Referring physician: Thatcher Smith.

Heart size is mildly enlarged. There are prominent markings of the left lower lung fields. Findings may represent residual pneumonia or scarring. The right lung is clear. There is no evidence for underlying tumor. Incidental note is made and degenerative changes are the spine in shelters. Follow-up chest and lateral and 46 weeks is advised.

Impression: no definite evidence for active pneumonia.

604

Transcribed Text (CSUSA_Session_IBm-3.Lst) 98.82% Accuracy

Just and lateral

History: [an amonia]

Referring physician: doctors met.

Hart died as mildly enlarged. There are prominent markings of the locked Laura Lund fields. Finding and neighbors back to residual and Lorna or scarring. The right line is clear. There is no evidence to for underlying tumor. And the tunnel now it may add degenerative changes are the spine and shoulders. Fallout South and lateral and 46 weeks if it fits to.

Impression: no definite evidence for active in London.

602

Verbatim Text - 100.00% Accuracy

Just and lateral

History: [pneumonia]

Referring physician: Doctor Smith.

Hart died as mildly enlarged. There are prominent markings of the locked Laura Lund fields. Finding and neighbors back to residual and Lorna or scarring. The right line is clear. There is no evidence to for underlying tumor. And the tunnel now it may add degenerative changes are the spine and shoulders. Fallout South and lateral and 46 weeks if it fits to.

Impression: no definite evidence for active in London.

606

Final Text

Just and lateral

History: [pneumonia]

Referring physician: Doctor Smith.

Hart died as mildly enlarged. There are prominent markings of the locked Laura Lund fields. Finding and neighbors back to residual and Lorna or scarring. The right line is clear. There is no evidence to for underlying tumor. And the tunnel now it may add degenerative changes are the spine and shoulders. Fallout South and lateral and 46 weeks if it fits to.

Impression: no definite evidence for active in London.
